

# MD99 Beltsville

MD99 is located in Beltsville, Maryland, only 18 miles from the center of Washington, D.C., and 27 miles from Baltimore, Maryland. Located on the property of the U.S. Department of Agriculture Beltsville Agricultural Research Center, MD99 is surrounded by fruit groves and corn fields. This rural environment allows MD99 to measure atmospheric deposition in a generally urban area, but without any local contamination.

Kenneth Pickering supervises the site and Zahra Chaudhry (at right) is the site operator, with Jennifer Hains as a backup. The site, which has collected NTN and MDN samples since June 1, 2004, is sponsored by the Maryland Department of Natural Resources and operated by the University of Maryland Chesapeake Biological Laboratory.
